ABOUT ESCO AUTOMATION

ESCO Automation, a proud division of ESCO Group, is a leading control systems integration firm with more than 25 years of industry experience. Based in Marion, Iowa, and supported by a dedicated team of over 400 professionals, we offer innovative, solution-driven strategies that optimize the performance and efficiency of our clients' operations, from concept to completion. As part of a larger organization specializing in electrical engineering, automation, electrical construction, and safety services, we provide comprehensive, customized support designed to meet the ever-changing demands of the industry.

WHY PARTNER WITH ESCO AUTOMATION: TURNING SOLUTIONS INTO REALITY

At ESCO Automation, we drive progress through innovative engineering, cutting-edge technology, and precise automation, offering forward-thinking solutions that turn complex challenges into measurable outcomes. With the support of industry-leading design tools and a team of expert engineers, we provide scalable, practical automation solutions with a strong emphasis on quality, safety, and performance. Our proven approach—rooted in innovation, quality, and safety—ensures your project's success at any stage or location. As part of a dynamic organization that includes ESCO Automation, ESCO Power & Safety, and ESCO Electric, we offer enhanced resources to give our clients a competitive advantage. Our award-winning safety program consistently exceeds national benchmarks, maintaining an OSHA Recordable Incident Rate significantly lower than industry standards. Whether you're upgrading, expanding, or starting from scratch, ESCO is your trusted partner—reliable, efficient, and code-compliant. "Turning Solutions into Reality" is more than just a slogan; it's our promise.

WHAT WE DELIVER

INNOVATION-DRIVEN SERVICES & EXPERTISE

SYSTEMS INTEGRATION

- SCADA Engineering with Virtualized Server Architectures
- Legacy PLC & HMI Modernization
- Turnkey Automation Solutions
- System Redundancy Design & Implementation

IT/OT NETWORKING

- Industrial Cybersecurity Solutions
- Operational Technology (OT) Network Assessments
- OT Network Architecture Design & Implementation
- Disaster Recovery Planning

ENTERPRISE SOLUTIONS

- Manufacturing Execution System (MES) Deployment
- Integrated Industrial Database Solutions
- Custom Software Development
- OEE & Operational Performance Analytics

CONSULTING

- Automation & Electrical Bid Package Development
- Front-End Engineering Design (FEED) Studies
- Modernization Roadmap
- Capital Planning

PLANT SERVICES

- Onsite Staff Augmentation
- 24/7 Remote & On-Call Technical Support
- Lifecycle Management – Firmware & Software Upgrades
- Preventive & Predictive Maintenance Programs

PANEL FAB/ASSEMBLY

- UL 508A & UL 698A Certified
- Custom Control Panel Design & Assembly
- Comprehensive Factory Acceptance Testing (FAT)

SAFETY

- NFPA 70E & NFPA 70B Compliance Training
- Arc Flash Hazard Analysis & Labeling
- Infrared Thermography, Ultrasonic & Ground Integrity Testing
- Comprehensive Plant Electrical and Safety Audits

ADVANCED MANUFACTURING SOLUTIONS

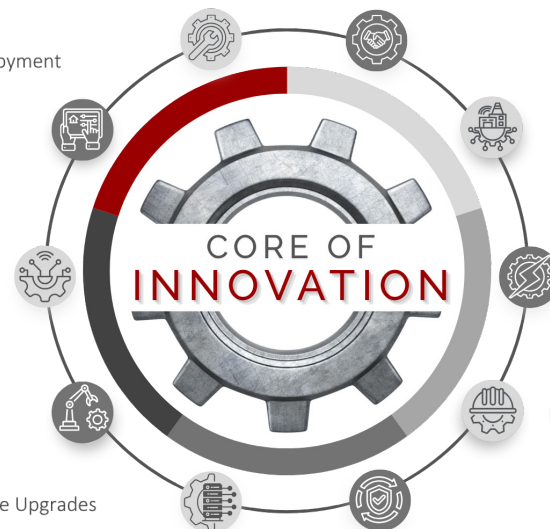

- Custom Machine Design & Build
- Automated Guided Vehicles (AGVs)
- Machine Vision
- Precision Motion Control

ELECTRICAL CONSTRUCTION

- Installations, Repairs, and Troubleshooting (24V-69KV)
- Onsite Maintenance & Support
- Fiber & Networking Installation
- Instrumentation Calibration & Certification

POWER ENGINEERING & CONTROL PANEL DESIGN

- Licensed Professional Engineering On Staff
- UL-Certified Control Panel & Power System Design
- Design-Bid-Build Documentation & Scope Development
- Turnkey IFC Drawings & PE-Stamped Packages
